the free entry of Canadian farm products to the United States.

More Association Talk

Thirdly, the prime minister had endeavored to rebut the arguments that the reciprocity pact would lead to a loss of protection. It could not be definitely foretold but it was a fact beyond the possibility of a doubt that the leading public men of the United States, its press and the bulk of its people believe that it will so result and will support it mainly for that reason. Mr. Borden affirmed that he could quote pages in support of this contention, if necessary, but it was a plain fact that in entering upon this treaty the people of the United States believed they were achieving the first step toward annexation.

Mr. Borden's manifesto then went on to enumerate the advantages of the pact, and to criticize the rival program, stating that in the latter case, Canada's duty could not be properly fulfilled by such a measure, and averring it was an unfortunate blunder on the part of the public.

The platform of the Liberal-Conservative party then followed Mr. Borden's manifesto. In substance it is: "The Liberal-Conservative party gives its whole to carry out the following policy:—

1.—A thorough reorganization of the method by which public expenditure is supervised. Increase in what is known as compulsory contributory expenditure from \$125,000,000 in 1906 to nearly \$250,000,000 in 1911, is proof of extravagance beyond any possible defence.

2.—Granting of the natural resources to the Prairie Provinces.

3.—Construction of the Hudson Bay railway and its operation by an independent commission.

4.—Control and operation by the state of terminal elevators, for establishing and carrying on child labor industries.

5.—Establishment of a permanent tariff commission.

7.—The granting of substantial assistance towards the improvement of our public highways.

8.—The extension of free rural mail districts.

9.—Extension of civil service reform.

10.—Granting of liberal assistance to the provinces for the purpose of supplementing and extending the work of agricultural education and for the improvement of agriculture.

Lastly, we pledge ourselves to a course of policy and administration which will maintain independent and unimpaired control of our own affairs by the parliament of Canada. A policy which, while it meets all just claims of complaint to any foreign nation, will find its highest ideal in Canada as a nation within the British empire.

Bitter Fight in Brandon

Winipeg, Aug. 14.—There is every promise of a lively doing when the Conservatives meet in Brandon, the heart of the wheat-growing area of the west.

It is Tuesday to select a candidate to contest the Brandon constituency. The nomination of A. B. Greenwood, made by the Liberals, has given the anti-reciprocity crowd a severe jolt, for they admit that Hill is the strongest man the Liberals have ever put in.

Since then the leading Conservatives have held several sessions to consider the situation, which is not very much to their liking. Hill's nomination has resulted in a reversal of the situation, inasmuch as the Conservatives of Brandon, the chief of whom is a candidate and this has started a vigorous campaign.

Brandon city. Conservative leaders feel that there is not a Brandon man in the ranks of the party who will give any show in the contest, and they are strong for the nomination of J. A. M. Atkins of Winnipeg, chief of the "Wheat" in the west.

Atkins is a Conservative, but since he has been made to think for himself he has been making the government.

Resolutions confirming the Liberal party's policy and in appreciation of Mr. Knowles' past services, were passed.

Was, too, been interviewed.

Vancouver, Aug. 14.—In a lengthy service J. W. Van Tongeren, who arrived from the east yesterday, said: "There is no doubt as to the voice of the country. The best information confirms the view of Premier Laurier that the next parliament will contain a large number of Liberals than the last one. This view is not a guess, arrived at by chance. It is based upon a careful canvass of the situation in the constituency in the Dominion. The Maritime Provinces are confidently expected to increase the present Liberal majority. They will certainly have done the same without reciprocity, but it is not the result is positively assured."

The removal of some of the reciprocity trade is immensely popular in all. In Prince Edward Island it is a fact that the Conservative seats to capture. In Nova Scotia among Conservatives there is some doubt as to certain at present than the defeat of A. B. Croft. The belief is based upon the result of the provincial election in Halifax a few months ago when the Conservative candidates were defeated by a landslide and also on the ground that Mr. Borden's hostility to the Canadian navy is immensely unpopular in the naval cities of the Atlantic coast.

The situation in the West. "The west, as a whole, is admitted by the Conservative party to be in favor of the trade agreement. "Manitoba cannot do much better for the Conservative party, and it stands to do worse; while Saskatchewan, with nine Liberals to one Conservative, cannot much improve its Liberal standing."

Quebec is absolutely in favor of the trade agreement and on that issue alone would elect 50 Liberals or more out of a total of 65. In Montreal city only a very organized opposition is in the field.

The situation in the Dominion. The Nationalists, led by that clever firebrand, Bourassa, have joined Mr. Monk. There is thus presented to the people of Canada the spectacle of an alliance between the ultra, loyalist, anti-reciprocity party of Ontario and ultra detractors of the party to Quebec to accomplish a common purpose, the defeat of Mr. Laurier. But the conspiracy will fail.

Ontario Will Break Even. "Quebec may increase its Liberal representation by two; it will certainly not do worse than elect 15 Liberals to 15 Nationalist-Conservative-Conservative-Nationalists, whichever name may best describe the new breed of Quebec politicians that the great Conservative party will have in future to rely upon."

Mr. Ontario colleagues are confident that that practice will even up the Liberals with the Conservatives. Having the cities, the whole province is for reciprocity. The cities, with the exception of Ottawa and Kingston, have returned Conservatives for a long time."

Speaking of British Columbia, Mr. Van Tongeren said: "Premier McBride declares he is going to deliver the whole province to Laurier. Well, I do not think British Columbia electors will approve of much dictatorship. They will not be influenced by such cheap bravado and stage play. McBride's popularity is a characteristic piece of exaggerated political humbug."

Mr. Van Tongeren will remain in the province until after the election.

A Reciprocity Convention. "Reciprocity for reciprocity, was the slogan of the Liberal convention which last evening unanimously nominated Dr. A. G. Gieson, Minneapolis, to contest Marguerite against Dr. W. J. Roche, the late Conservative member. It was more a reciprocity convention than a Liberal convention for there were electors present who had never before

branched in the opposition is to have any chance to win. There are those in the party, too, both in the city and at rural points in the country, who regard Laurier as a Winnipeg man, as an impossibility, considering that there is a very large constituency that will go against him."

Winipeg, Aug. 14.—There is every promise of a lively doing when the Conservatives meet in Brandon, the heart of the wheat-growing area of the west.

It is Tuesday to select a candidate to contest the Brandon constituency. The nomination of A. B. Greenwood, made by the Liberals, has given the anti-reciprocity crowd a severe jolt, for they admit that Hill is the strongest man the Liberals have ever put in.

IT IS THE HOME TEA OF THE WEST

There are good reasons why Blue Ribbon is the home tea of the West. It is unsurpassed satisfactory. A small amount of Blue Ribbon makes more tea than a much larger quantity of other teas. The superior flavor of Blue Ribbon is noticeable at once. If a packet. If you don't find it satisfactory, return the balance to your grocer and he will refund your money.

ENTERTAINMENTS

A GOOD PERFORMANCE

The "Bunny Ride of Broadway" a musical comedy in two acts drew a crowded house at the Empire last night and was received with a rapturous reception. The plot in itself is very interesting, but nevertheless there are plenty of opportunities afforded for the introduction of songs and dances. Max Bloom, as Alvy Treddelmer, a Hebrew, who sells umbrellas, and the two friends, Jack and Jack, kept the audience in laughter from start to finish. Of the songs, the one which was accorded the most applause was "Meet me at the Stage Door, Johnnie," sung by Alice Sher and chorus. "In My Own Mind" sung by Florence Martin and chorus, also drew round after round of applause. Max Bloom had to repeat several lines with his partner several times, as the audience was so good. Several new departures, such as the wive scene and the rain scene took exceedingly well. The company will be at the Empire tonight and Wednesday, with Wednesday matinee.

"HUMAN HEARTS"

"Human Hearts" the melodramatic piece announced at the Empire beginning next Thursday, appears to be a story that comes with heart interest. From beginning to end, "Tom Logan" an honest young blacksmith in the Arkansas hills, who has been with and married a reformed confidence woman. The dull country life

GREAT ENTHUSIASM FOR DR. WARNOCK, M.L.A.

Macleod Liberals Unanimously Favor Popular Local Member for Liberal Candidate in Federal Election—He Accepts Nomination.

Calgary, Aug. 14.—The Liberals of the Macleod constituency at their nominating convention in the town of Macleod yesterday afternoon selected Dr. David Warnock, M.L.A., of Pincher Creek, as their standard bearer in the forthcoming general election. The convention was one of the most enthusiastic, and the largest ever held in this riding. Not even waiting for the committee on credentials to report, the meeting for a man arose and nominated David Warnock.

Dr. Warnock, of the Winton, started the ball rolling. He was asked to make a short speech, and when he got on his feet, he nominated David Warnock the reciprocity standard bearer. He said all the delegates were there for that purpose, and he did not need to make a speech as Dr. Warnock was known to them all.

Senator Talbot mentioned that this could not be done, as the committee on credentials had not reported and there might be some present not qualified to vote.

It is immaterial about the credentials, said Mr. Trevelyan, "We are all here to a man for Dr. Warnock, so credentials will not signify."

The meeting then rose to make a cheer after cheer was given for Dr. Warnock, with cries of "Vote the man!" and "We want our own."

At right, said Senator Talbot, "I am an old man, but I have been here for a long time, and I have seen the best of the Liberal party."

After the nominating was over, the president of the convention reported that 12 delegates were present and every political division represented. This was a record for the Liberal party in this riding.

After the nominating was over, the president of the convention reported that 12 delegates were present and every political division represented. This was a record for the Liberal party in this riding.

Regular \$1.25. Special ... \$1.00 (First Floor)

Provincial Authority Must Call Liberal Nominating Conventions

Frantic efforts are being made to mislead the Liberals of the riding into the notion that the so-called "convention" summoned by Mr. P. E. Lessard and Mr. James McKinnon for Wednesday of this week is bona fide. Placards were posted around the city yesterday declaring the convention to be properly called and in every way genuine. The same mis-statement was re-asserted in the newspaper controlled by the faction who have taken upon themselves to summon the "convention" for purposes of their own. Throughout the country the organized clique have been busy trying to drum up delegates, in some cases by means as illegitimate as the calling of the "convention." In the city the necessity of calling "primaries" for the selection of delegates seems to have been blandly disregarded, and many of the local chairmen of districts in the city have not been advised officially of the bogus convention at all. It goes without saying that the gathering will be in no sense representative, as it will be in no sense bona fide. The executive of the Lac Ste. Anne provincial district decided on Saturday to take no notice of the assemblage. In Stony Plain efforts were made to persuade the local officers to hold primaries but many of them refused flatly and declared their intention of having nothing to do with the unauthorized gathering. In the St. Albert district the emissaries of the faction have been particularly busy and some curious stories are coming in of the methods employed to hood-wink the Liberals of that district into sending delegates. The character of the gathering, however, has been pretty well exposed, and while its authors and those they may succeed in deluding will doubtless assemble themselves with the assurance of the three tailors of Tooley street and proceed to tell the Liberals of the riding who their candidate is, the performance is likely to produce chiefly amusement and resentment.

As the question of the proper authority to call nominating conventions has been raised, it may be well to produce a few facts from the records, by way of clearing the general understanding of the question. On October 16th, 1907, a meeting of the Edmonton City Liberal Association was held, when ten voting delegates were chosen to attend the first and organization meeting of the Provincial Association in Calgary on the following Wednesday. The voting delegates chosen were Messrs. Arthur Mowatt, Wilfrid Gariepy, P. J. Manson, J. A. McDougall, Dr. Strong, Chas. May, J. A. McKinnon, G. B. MacLeod, P. E. Lessard and Jas. McGeorge. At the meeting at Calgary on the 22nd the Provincial Association was formed, officers elected, and the dates of the nominating conventions for the seven Alberta constituencies were named. The date named for the Edmonton district nominating convention was December 10. It was erroneously stated in the Bulletin yesterday that the Edmonton convention was held in 1908. The correct date is December 10th, 1907. At this convention Mr. P. E. Lessard, president of the Edmonton City Liberal Association presided, and in opening the convention explained that in the absence of Senator Talbot and Mr. Jones of Calgary, president and secretary of the Provincial Association, Mr. McGeorge and himself had been delegated to conduct the convention. Among the business transacted at this convention was election of officers for the Liberal Association of the Edmonton Federal constituency. That was the beginning of the Edmonton district Liberal Association.

From this record two things are plain:—

1. That it is the business of the Provincial and not the local Association to fix the dates of nominating conventions. 2. That the president and secretary of the Provincial Association preside at the conventions except when they delegate the authority to other parties.

"Conventions" so-called summoned other than by authority of the Provincial body are not bona fide. This authority has not been given for the gathering to be held in Edmonton tomorrow. It is, therefore bogus.

ALL IS READY FOR OPENING OF GREAT WESTERN FAIR

With every possible difficulty anticipated and every contingency met, the Exhibition Association finished its labors last night and, for the first time with the rest of Edmonton, is led to await with equanimity the dawn which will see the fair open. The association has ever been so thoroughly prepared on all sides as to elaborate a plan in addition to the one originally proposed, that the Association has been able to meet the demands of the public and to provide for the needs of the fair. The exhibition was held on the grounds of the fair, and the Association was able to provide for the needs of the fair. The exhibition was held on the grounds of the fair, and the Association was able to provide for the needs of the fair.

Trains from all parts of the province brought crowds of tourists bound for the fair, and the Association was able to provide for the needs of the fair. The exhibition was held on the grounds of the fair, and the Association was able to provide for the needs of the fair.

The fair presents the appearance of a huge stock farm. Practically all the stock accommodation is taken up and late comers will have to put up with cramped quarters. The only possible source of real trouble, however, is the weather. Great abundance of sunshine and heat everything else will be tolerated.

In the manufacturing building. In the manufacturers' building the state are now all in readiness. Western men engaged all yesterday in adjusting the exhibits and arranging the exhibits in an important consideration. When opening hour comes this morning a complete series of perfectly prepared exhibits will line the interior of the hall.

The two stables of running horses and their trailing carriages of which we have heard so much have already had their final touches applied and

are now, one might imagine, restlessly awaiting the coming of the crisis and the excitement that accompanies the beginning of the race. Jockeys and drivers have now been selected and are waiting for the start. The race will be held on the grounds of the fair, and the Association was able to provide for the needs of the fair.

GAS BY-LAW IS DEFEATED

Failed to Secure Necessary Two-Third Majority For Adoption

MAY RE-SUBMIT THE GAS BY-LAW

Last evening a number of bankers and other prominent men of the city waited upon Cyrus S. Eaton of the International Heating and Lighting Co. and urged him to take steps to request the council to re-submit the gas by-law to the ratepayers. They promised, if it were re-submitted, that they would conduct a thorough campaign in its favor as a business men committee. It is thought that the reason for the defeat of the by-law yesterday was the fact that it was entangled with the civic embargo and also that criticism about constantly last night with inquiries and there was general surprise at the information that the agreement had failed to get the requisite two-thirds majority.

Thomas Bellamy was elected to a seat on the city council yesterday by a majority of 228 votes. The proposal to grant a franchise for the manufacture of artificial ice to the International Heating and Lighting Co. had 79 votes of the total majority required and was therefore defeated. The nearest interest was manifested yesterday in the polling, which was unusually heavy. One of the noticeable features of the voting was that, while fewer persons were qualified to vote on this proposal to grant the franchise than on the election to fill the vacant place on the council, the total number of votes cast on the former question exceeded by more than one thousand that cast on the latter, though that was unusually heavy. This is accounted for by the fact that burgesses have up to four votes each in the election, while only one vote each is allowed for aldermen.

Ex-Ald. McKinley easily carried the two polls in the west end, but was badly beaten in the east, where Mr. Bellamy's automobiles and those of the aldermen were very much in evidence throughout the day, bringing voters to the polls. Both sides were active and no person willing to vote was kept away by lack of transportation facilities. The total number of votes cast on the question of granting a gas franchise was no less than 279 of which 128 were cast for the granting of the franchise. The majority, however, was thought to be as the provision of the charter require that before a franchise is granted it must secure at least two-thirds of the total vote cast. The result of the voting is as follows:

In the election to fill the vacant place on the council the voting at the several polling stations was as follows:

No. 1—	For McKinley	123
	For Bellamy	127
Majority for McKinley		30
No. 2—	For McKinley	225
	For Bellamy	157
Majority for McKinley		25
No. 3—	For Bellamy	328
	For McKinley	114
Majority for Bellamy		211
No. 4—	For Bellamy	321
	For McKinley	24
Majority for Bellamy		237
Total at all polls for Bellamy		566
Total at all polls for McKinley		574
Total majority for Bellamy		359

In the voting on the proposal to grant a gas franchise to the International Heating and Lighting Co. the results at the several polling stations were as follows:

No. 1—	For the agreement	278
	Against the agreement	175
Majority for		103
No. 2—	For the agreement	490
	Against the agreement	292
Majority for		95
No. 3—	For the agreement	474
	Against the agreement	224
Majority for		250
No. 4—	For the agreement	396
	Against the agreement	122
Majority for		274
Total for agreement		1639
Total against agreement		541
Majority for agreement		697

Number of votes required to carry the agreement 1728.
